

BUILDINGS AND APPLIANCES TASK FORCE

7th Meeting

8-10 April, 2009

New Delhi, India

Review of the 6th BATF Meeting

Dr. Jungwook Park

APP BATF Chair

Highlights

- Held in Melbourne, September 22-26, 2008
- In Conjunction with Sustainable Buildings 2008
- Net Zero Energy Workshop
- Joint-Meeting with World Green Building Council
- APP Booth and BATF Outreach

Numbering Framework for BATF Projects

- **Finalized Numbering Framework for BATF projects**
 - As advised by ASG, BATF projects get separate numbers
 - Total number of BATF projects: 49 (46 ongoing, 3 cancelled)
 - Tentatively agreed on maintaining 11 themes for effective project management
 - Accordingly, new projects should get approval not only from the BATF but also from PIC members

Performance Measures

- The US BATF presented methodologies for two selected BATF projects:
 - BATF-06-10 Support for Implementation of an Energy Efficiency Endorsement Labeling Program for India
 - BATF-07-37 Mitigating Climate Change via Implementation of India's EE Standards and Labeling Program

Endorsed New Projects

- India's *Green Space-IT/ITeS Special Economic Zone Project* was endorsed by the BATF
 - BATF agreed to recommend it to the PIC for approval as a flagship project

Net Zero Energy Workshop

- Facilitated by the Canadian Government
- Industry representatives from each BATF partner country shared their experience with Net Zero Energy Buildings
- Explored the opportunity to develop NZE projects under the BATF

THANK YOU!
