

PROJECT STATUS REPORT FORM

Project Number: CFE-07-15	Task Force: Cleaner Fossil Energy
Title of Project: Coal gasification performance assessments for low emissions IGCC systems	
Lead Partner Country: Australia	
Participating Partner Countries and Organizations: Peoples Republic of China: Thermal Power Research Institute (TPRI) Australia: CSIRO	
Project Location (Country, State/Province, City): Australia, Queensland, Brisbane	
Project Manager Information Name: Dr David Harris Organization: CSIRO Energy Technology Address: PO Box 883, Kenmore, Qld, 4069, Australia Phone: +61 7 3327 4617 Fax: Email: David.Harris@csiro.au	
Project Start Date: 1 Feb 2008	Date of Project Status Update: 20 August 2010
Actions Since Last Update: <p>Extended discussions between CSIRO and TPRI have been conducted to identify an appropriate collaborative coal gasification program. Plans to relate laboratory and pilot scale gasification performance results from Australian and Chinese Coals were deferred as a result of the relocation of the TPRI pilot gasifier unit to support the GreenGen program.</p> <p>The scope of the program is now being revised and in the near term will be expanded to develop additional collaborative links with a number of other Chinese universities and research institutes. Collaborations to extend research and applications on coal gasification behavior will be included in these discussions as will advanced syngas processing and gas separation technologies which have been the focus of recent CSIRO research.</p> <p>Although this initiative is not funded under the APP Program, the proponents would like to continue to develop these collaborative links under the APP program umbrella. This would assist in coordinating effort and would provide a stronger link to important international efforts in this area.</p>	
Deliverables Since Last Update: see above	
Date Completed:	
Milestones Reached: see above	

Next Steps:

- Finalise revised scope for collaboration – November 2010
- Finalise new Chinese Collaborators – December 2010

Proposed Project End Date: Sep 2011

Project Already Complete: Yes No

Other Information: NA
