

PROJECT STATUS REPORT FORM

Project Number: CFE -06-07	Task Force: Cleaner Fossil Energy
Title of Project: Integrated Gasification Combined Cycle with Carbon Capture and Storage Workshop and Design information for APP Country Coals	
Lead Partner Country: USA	
Participating Partner Countries and Organizations: Japan (J-Coal) Cosponsor of workshop and Australia, USA, Japan, Korea, as well as non-APP countries (approximately 40 firms including engineering, supplier, government, and many power generators with over 400 GW of coal capacity) participated in guidelines	
Project Location Workshop Japan, Tokyo: Guidelines USA, California, Palo Alto	
Project Manager Information Name: Stuart Dalton Phone: 1-650-855-2467 Organization: EPRI (USA) Fax: 1-650-855-8759 Address: 3420 Hillview Ave , Palo Alto CA, 94304 Email: sdalton@ EPRI.com	
Project Start Date: 4 September 2006 (pre-work prior to this)	Date of Project Status Update: October 2009
Actions Since Last Update: As a direct result of prior workshop several firms joined the ongoing CoalFleet for Tomorrow™ collaborative project that includes guideline and generic design documents for IGCC with and without CCS, as well as transferring lessons learned in IGCC and design integrations studies. Since the last update MHI joined and the guidelines have been expanded to 1100 pages including varying degrees of pre-engineering fro IGCC to accommodate CCS	
Deliverables Since Last Update: No APP separate deliverables – two updates to CoalFleet for Tomorrow® IGCC guidelines have been delivered Date Completed: Workshop and reports completed October 2006	
Milestones Reached: Workshop complete and guidelines issued	
Next Steps: No next steps under APP required. Continuing updates of guidelines and using them for developing CCS demonstrations under CoalFleet for Tomorrow ® and EPRI demonstration programs	
Proposed Project End Date: Complete	Project Already Complete: x Yes No <input type="checkbox"/>

Other Information: a number of related public documents are available Note reports are able to be downloaded at www.EPRI.com for EPRI Journal with a cover article on CO2 please enter the number 1018279 in the search field. For the EPRI new baseline of public cost numbers for all generation technologies please go to www.epri.com and enter the number 1018329. CoalFleet Vision Document on CCS available on line at www.epri.com enter 1016877
