

## FINAL PROJECT STATUS REPORT FORM

<b>Project Number:</b> RDG-06-22	<b>Task Force:</b> REDGTF	<b>Date of Project Status Update:</b> 10 Feb 2011
<b>Title of Project:</b> Improving the Cost-Effectiveness of Biomass Energy Generation		
<b>Lead Partner Country:</b> Australia		
<b>Participating Partner Countries and Organizations:</b> Curtin University of Technology (Australia), Huazhong University of Science and Technology (China), Korea Institute of Energy Research, Kyushu University (Japan).		
<b>Location of Project:</b> Laboratories in the participating organisations.		
<b>Project Manager Information:</b> <b>Name:</b> Professor Chun-Zhu Li <b>Organization:</b> Curtin University of Technology <b>Address:</b> 1 Turner Avenue, Technology Park, Perth, WA 6102, Australia <b>Phone :</b> +61 8 9266 1131 <b>Fax:</b> +61 3 9266 1138 <b>Email:</b> chun-zhu.li@curtin.edu.au		
<b>Actions Since Last Update:</b> <ul style="list-style-type: none"> <li>• Experimental and simulation research work has continued in all participating organisations as planned.</li> <li>• The eighth project meeting was held in KIER (Korea) on 11-12 December 2010.</li> </ul>		
<b>Deliverables Since Last Update:</b> Since the acceptance of our progress report in May 2010 by Australian government, efforts have been made towards Milestone 5.		
<b>Milestones Reached Over Lifetime of Project:</b> Milestone 4 and working towards Milestone 5, which is due in May 2011.		
<b>Expected Project End Date:</b> 30 May 2011 (in Australia).	<b>Project Already Complete:</b> <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
There were no project-specific web sites created.		
<b>New Contact Information: (If different from above)</b> All future communications should still be sent to the current project manager in Curtin University of Technology, as was given above.		
<b>Other Information:</b> In addition to the research collaboration and the development of novel technologies (including a few important awards/prizes), this project has truly helped to establish and expand the research alliance among the project participants. For example, the Australian and Chinese partners have established the Curtin-HUST Joint Research Laboratory for Coal and Biomass Utilisation. The Australian and Japanese partners have signed formal agreement to collaborate in this area and Curtin will continue to be an International Partner of the Kyushu's Global Centre of Excellence program funded by the Japanese government. The project partners are making great efforts to continue this collaboration.		

Please attach any supplemental project information to this form.
