

Stakeholder Issues: Cleaner Fossil Energy Task Force

Samantha Scott
Director, Policy & International
Australian Coal Association

APP PARTNERSHIP

- Benefits of the Partnership: ACA perspective
 - Excellent model for industry-government partnership at international level
 - Focus on technology development and deployment
 - Complements the focus of the Australian coal industry, which is raising \$1 billion for low emission coal demonstration projects
 - Sectoral approach

CFE TASK FORCE

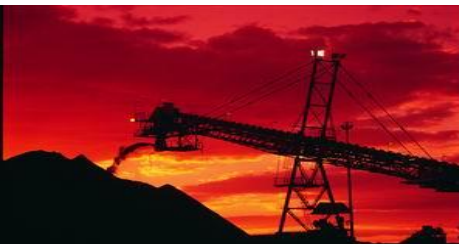

- Benefited from \$100m Australian Government Funding program:
 - 9 projects received over \$23m
- Established three Working Groups:
 - IGCC , Oxy-fuel and gas
 - IEA commissioned to undertake IGCC study
- Linkages with APP PowerGen Task Force
 - Joint meeting held in April 2008, Australia

POWERGEN TASK FORCE

- Energy Regulatory and Market Development Forum
 - positive industry feedback
 - first time energy regulators, system operators and energy policy makers have shared experiences
- Task Force has been successful in establishing industry networks and disseminating best practice information

ISSUES FOR PIC CONSIDERATION

- Challenges for APP moving forward:
 - Maintaining momentum in project development
 - Ongoing funding will be essential!
 - Linkages with other international organisations
- PIC's vision for the future of APP
- Scheduling of meetings
